-

# Professional Experience

## Founder and CTO

Arashtad — Yerevan, Armenia

2014 – Present

- Managed clients, designed UI, and developed over 500 web applications. Some of the projects are done all by me and some of them with the help of my experienced team.
- From back-end development, front-end development, UI design, and graphic design, to project management, DevOps and CTO, in each project I've played the role that the work has required.

## Full-Stack Web Developer

Freelance Projects — Remote

2008 – Present

- Developed and maintained a variety of front-end and back-end projects for companies and individual clients around the world.
- Designed RESTful APIs and integrated third-party APIs to enhance application functionality.
- Implemented responsive UI/UX designs using HTML5, CSS3, and JavaScript frameworks.
- Utilized Git for version control and collaborated with cross-functional teams using Agile methodologies.
- Improved application performance and security through code optimization and regular updates.

## Graphic Designer

Ad Agencies and Publishing Companies — Karaj, Iran

2004 – 2008

- Designed a variety of graphical products for multiple ad agencies and publisher companies.
  - Adobe Photoshop, Adobe Illustrator, Corel Draw, Freehand, plus some other design tools is the stack we used on those old days.
- 

## Certifications

- C# Developer — Saina Institute, 2010
- CSS Developer — W3Schools, 2014
- Django Developer — Udemy, 2016

---
